

# DNAX

A software suite that aids in the data management, interpretation and reporting of DNA profiling data

## Workshop 2024

## January 16 – 18, 2024

### Costs

€ 998,- per person

N.B.: No VAT will be added

### Registration deadline

November 16, 2023

### Number of participants

Min. 30 / max. 40 persons

### Software

60 days DNAXs software use included (single license)

## Get familiar with DNAXs

Join a series of presentations and get hands-on experience with the DNAXs software, including new features, such as:

- ✓ Workflows and modules in the software
- ✓ Use of different data types (autosomal, mtDNA and Y)
- ✓ Connectivity of the platform to other forensic applications

## Intended audience

Law enforcement forensic experts – experienced reporting officers who deal routinely with DNA profiling evidence and are required to interpret complex mixtures in casework

## Learning outcomes

- Get familiar with the DNAXs workflow and modules
- Perform a statistical evaluation of DNA mixtures with DNAStatistX
- Are able to use DNAXs on your own cases
