

# DNAX

A software suite that aids in the data management, interpretation and reporting of DNA profiling data

## Online Workshop 2021

**November 22nd & 23rd**  
**9:00 – 16:00 (CET)**

### Costs

€ 393,- per person  
N.B.: No VAT will be added

### Registration deadline

September 17<sup>th</sup> 2021

### Number of participants

Max. 60 persons

### Software

Participants will receive a 60 days free version of DNAXs

## Get familiar with DNAXs

Join a series of presentations and get hands-on experience with the DNAXs software, including new features, such as:

- ✓ Optimization of the DNAStatistX module
- ✓ Reporting in DNAXs
- ✓ Improved connectivity to other forensic applications

## Intended audience

Reporting officers who deal routinely with forensic DNA profiling evidence and are required to interpret (complex) mixtures in casework.

## Learning outcomes

- Get familiar with the DNAXs workflow and modules, perform a statistical evaluation of DNA mixtures with DNAStatistX
- Be able to implement and use DNAXs on own cases.

## Interested?
